Tim Bakker

Software & Web Developer

PROFESSIONAL SUMMARY

Software Development graduate from Windesheim in Almere, experienced in building robust web applications, dashboards, custom e-commerce stores, and maintaining legacy codebases. Combines strong technical architecture with accelerated development workflows, including Cursor, to deliver clean, production-ready software efficiently and with a strong focus on customer satisfaction.

WORK EXPERIENCE

Founder & Web Developer *2025 - Present*

Basker Solutions & WebBakker / Freelance

- Designed, developed, and implemented full-featured e-commerce stores and custom web applications for external clients.
- Used modern, accelerated development environments such as Cursor to shorten development time and keep codebases clean.
- Maintained direct contact with clients, defined project scope, and managed full delivery.

Junior Software Developer *January 2026 - Present*

OctoPOS - Noord-Holland

- Maintain, optimize, and refactor PHP legacy codebases and build new features for users.
- Handle technical integrations between application core logic and retail POS hardware systems.

Software Developer (Intern) *February 2025 - July 2025*

Arcadis - Amersfoort

- Rebuilt and modernized the internal user interface of an internal train simulator using React and Electron.
- Focused on clear UI/UX design standards and improved usability for internal engineers.

Software Developer (Intern) *September 2024 - January 2025*

S4Financials - Hilversum

- Developed a core financial invoicing module from scratch using Yii PHP to replace legacy architecture.
- Provided system documentation and collaborated in an agile environment.

EDUCATION

Associate Degree Software Development *2023 - 2025*

Windesheim College - Almere, NL

Software Developer (MBO) *2019 - 2022*

ICT Campus - Hilversum, NL
